Dear Sir:

Re: Good Engineering Practice Project
Clarke Lake Field

In response to your request of January 14, 1970, this is to advise that the spacing area including the well

Pacific et al b-76-G/94-J-10

is included in the subject Project, effective February 1, 1970. From this date the well will no longer be subject to a production rate limit, but should be produced in accordance with Good Engineering Practice. The Project allowable of 400 MMSCF/D remains in effect.

Yours truly,

J. D. Lineham
