Dear Mr. Woo:

**RE: GOOD ENGINEERING PRACTICE SPECIAL PROJECT, AMENDMENT #8  
OTHER THAN NORMAL SPACING ORDER, AMENDMENT #8  
HERITAGE FIELD – MONTNEY “A” POOL**

The Commission has reviewed your application dated December 7, 2010, requesting amendment of a Good Engineering Practice approval for the Heritage field - Montney formation.

The Commission maps this area within the regional Heritage field Montney “A” pool. Application is intended to extend successful development beyond the original approval area, as gas recovery from this resource benefits from the ability to produce horizontal wells in optimal locations, drilling from central sites. For regulatory purposes, the Commission designates the entire Montney sequence as a single formation, removing commingling as an issue.

As a result of recent legislative changes, authorities previously contained in a single approval document for this activity are now covered in the attached;

- 1) Order 04-06-001 (Amendment #8) designating Good Engineering Practice, Shell Project #1, within a portion of the regional Heritage field Montney formation as a Special Project under section 75 of the *Oil and Gas Activities Act*, and
- 2) Order 04-06-001-OTN (Amendment #8) approving Other Than Normal Spacing under section 65.1 of the *Petroleum and Natural Gas Act* for the subject formation and area.

As a Good Engineering Practice special project, the applicant intends to locate, complete and operate wells in a manner to optimize resource recovery while minimizing surface impacts.

Should you have any questions, please contact the undersigned at (250) 419-4421 or Travis Mercure at (250) 419-4448.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Slocomb', written over a horizontal line.
