on May 1/1993*

Dear Mr. Schneider:

**RE: MODIFICATION TO GOOD ENGINEERING PRACTICE (GEP)
RIGEL EAST - GETHING 'A' POOL**

This is in regards to your letter of January 18, 1993, requesting a seasonal increase in the gas daily production limit for the subject GEP.

An annual gas allowable, based on gas reserves underlying the project, would provide the operating flexibility required for economic production from the well at 14-2-88-16. Condition #3 of the GEP approval dated July 18, 1991, is hereby modified as follows:

- 3. Gas production from the approval area shall be limited to an annual gas allowable of 21 900 10³m³.

All other conditions of the original approval remain unchanged.

Sincerely,

B. van Oort
A/Director
Engineering and Operations Branch
