Poco/Strega/Campion Project (02)

Dear Mr. Frankiw:

**RE: RESCIND GAS INJECTION PRESSURE MAINTENANCE APPROVAL
STODDART WEST BELLOY "C" POOL**

The Commission has reviewed your request dated April 23, 2002 to rescind the gas re-injection pressure maintenance scheme approval, originally granted February 13, 1986 for a portion of the subject pool, specific area E/2 section 35-85-20 W6M.

As gas is no longer being re-injected and project wells are not eligible for GOR gas credits, your request is appropriate.

Effective May 1, 2002, producing wells revert to their individual well daily oil allowable (DOA), and will be subject to GOR adjustment factor. The form "Production Allowable Report - Crude Oil" must be submitted to this office on a monthly basis, by the 15th of the month following production. The following list details allowables for the effected wells:

<u>WA#</u>	<u>Wellname</u>	<u>DOA (m3/d)</u>
