Attention: Mr. A. W. S. Zia, P. Eng. Chief Production Engineer

Dear Sir:

Re: Amendment to Pressure Maintenance Scheme Approval,
West Eagle Unit #1 - Belloy 'F' Pool

With reference to your application of 1981 08 18 as Unit operator requesting modification of the original approval and to your meeting with Ministry staff on 1981 08 27, we wish to advise you that conversion of the following wells to water injection service is hereby approved:

6-31-84-18 W6M 6-25-84-19 6-6-85-18 and 6-2-85-19.

Approval of the mechanical details should be obtained from our Field office by submittal of "Application to Alter a Well" forms.

As discussed at the meeting we feel it is important that the Unit should move rapidly toward withdrawal/injection balancing on a pattern basis and toward withdrawals from patterns based on pattern reserves.

Yours truly,

R. W. Durie Assistant Deputy Minister
