Attention: Mr. K.W. Cheryba

Dear Sir:

Re: Disposal of water from wells in the Buick Creek Field  
into Peejay Unit #3 facilities

With reference to your application dated March 13, 1974 to dispose of water from the wells in a-29-L/94-A-10 and b-22-I/94-A-11 producing from the Dunlevy formation in the Buick Creek Field into the Peejay Unit No.3 waterflood facilities operated by Pacific Petroleum Ltd., the application is hereby approved subject to the following conditions.

- 1) Water produced from the Dunlevy formation in the wells located in a-29-L/94-A-10 and b-22-I/94-A-11 only may be disposed of to the Peejay Unit #3 facilities.
- 2) The maximum amount of water disposed of in any 24 hour period shall be 100 barrels.
- 3) The water shall be treated with sodium sulphite prior to delivering to the Unit operator.
- 4) Compatibility tests between the water for disposal and the Peejay Unit No.3 injection water shall be performed annually and copies of the results of the tests forwarded to the Branch.

.....2

- 5) This approval may be modified or rescinded by the Chief Engineer at any time.

This approval is effective on April 1, 1974.

Yours truly,

A.J. Dingley  
Chief Engineer
